

EVANGELIZATION & DISCIPLESHIP

HELPING MOVE YOUR
PARISH TO MISSION

HOW TO USE THE PARISH AUDIENCE TOOL:

1. List ALL your parish programs and number them. These don't have to be only spiritual programs, but can also be social programs that COULD be used for Pre-Evangelization (even if they are not currently).
2. After you have listed all your programs, write the numbers of the programs in any corresponding box where they may fit. It is okay if a program is listed in multiple boxes.
3. Assess where you have strengths and weaknesses. Where do you have too many programs? Where do you have too few?
4. What is your action plan to help move people further down the path of Missionary Discipleship? i.e. if someone in the "around" category has a profound encounter with Christ, how will the parish support them on a path of discipleship that helps them grow in that relationship all while bundling their evangelical zeal and skill to witness to Christ. Parishes should have multiple paths or opportunities for people who are at different parts of their missionary Discipleship journey.
5. Call the Office of Evangelization and Discipleship for assistance in strengthening the areas of your path of discipleship that you have determined need help. The Office can recommend programs or do on site consulting to help your parish become more missionary.
